EDUCATION

PhD Candidate at NKUA – Inorganic Chemistry Department. (2021 – present)

Study: Metallic complexes with multidentate ligands such as PNP/PNC and NHC carbenes.

Postgraduate student of the Department of Inorganic Chemistry - MSc: Inorganic chemistry and its industrial applications. (2019-2021)

Thesis: Synthesis, characterization and study of Cu(I/II) και M(III), M = Cr, Ru metal complexes, with imidodiphosphinic and N-containing ligands. (2020-2021)

Graduate student of the National and Kapodistrian University of Athens, Chemistry Department. (2014-2019)

Thesis: Synthesis, structural and spectroscopic properties of $[M(III)\{Ph_2P(O)N(S)PPh_2\}_3]$, M = Ru, Cr, Ga, In, $[Ru(III)\{Ph_2P(O)N(Se)PPh_2\}_3]$ and $[Ru(III)\{Ph_2P(O)N(O)PPh_2\}_3]$ complexes». (2018-2019)

Selected courses of the inorganic and environment department - teaching of chemistry.

Techniques: IR spectroscopy, UV-Vis spectroscopy, EPR spectroscopy, GC-MS, HPLC

2nd Experimental High School of Athens (2009-2012)

WORK EXPERIENCE

- Assistant in Water Safety Plan and Environmental Protection projects – “I. Koujianos and Associates” (Delphi Engineering)
(December 2020 – present)
